WORD SEARCH

Word Lists

Every word the Word Search app can place in a puzzle, so parents can review them.

The lists are reviewed by hand. Every puzzle is also checked in all directions so the randomly generated letters never spell offensive words. This applies in both Adult and Child modes.

Child mode

7 topics, 1,103 words. A child picks an age from 6 to 10; puzzles use words for that age and the ages below it. Ages 6 and 7 use words of 3 letters or more, across and down only. Ages 8 to 10 use words of 4 letters or more and add diagonals.
